

Use counting up for written subtraction

1. $8000 - 5132 = \square$

2. $7002 - 1399 = \square$

3. $3005 - 547 = \square$

4. $7642 - 2335 = \square$

5. $6001 - 3247 = \square$

6. $8000 - 957 = \square$

7. $6004 - 3188 = \square$

8. $4010 - 1274 = \square$

9. $6006 - 873 = \square$

10. $9015 - 5982 = \square$

11. $2002 - 268 = \square$

12. $7011 - 5283 = \square$

13. $9100 - 3879 = \square$

14. $2005 - 276 = \square$

15. I pour 385 ml out of a 2 litre bottle of lemonade. How much is left?
16. Frog subtracts from a different multiple of a thousand each time. He gets the same answer of 2345. Write as many questions as you can where Frog gets this answer.
