What sort of things did Jane discover that made her think this?

Answers

1. Jane Goodall knows a lot about which animals? Tick **one**.

- ☐ lions
☒ **chimpanzees**
☐ monkeys
☐ stuffed animals

2. What did Jane's father give her when she was young?

Jane's father gave her a stuffed chimpanzee called Jubilee when she was younger.

3. Explain what happened in 1957 when Jane went to Africa.

Pupils' own responses, such as: Jane went to Africa and met Louis Leakey, who was a scientist who knew a lot about chimpanzees. Jane agreed to work for him and began learning all about the animals.

4. Draw a line to match the names to who (or what) they are.

5. What are chimpanzees?

- ☐ monkeys
☐ gorillas
☒ **apes**
☐ humans

6. Number these to show the order that they appear in the text.

The first one has been done for you.

- 4** Jane gave all the chimpanzees names.
2 In 2002, she was given an award.
3 Jane still has Jubilee!
5 Jane found out that chimpanzees were a lot like humans.
1 She has lived with chimpanzees for 55 years.

7. Write one thing that Jane learnt about chimpanzees.

Accept any one of the following: chimpanzees 'speak' to each other through sounds, touch, making different faces and the way they move; chimpanzees use tools; chimpanzees eat meat; chimpanzees eat both meat and plants; chimpanzees are all different and can show feelings.

Answers

1. What has Jane Goodall been doing for 55 years?

For 55 years, Jane has been studying chimpanzees to find out how they behave and act in the wild.

2. What was Jane named in 2002? Tick **one**.

- ☒ **Messenger of Peace**
- ☐ Messenger of Animals
- ☐ Chimpanzee Expert
- ☐ Animals and Wildlife Supporter

3. Explain who Jubilee is and why she is so important to Jane.

Pupils' own responses, such as: Jubilee is a stuffed chimpanzee given to Jane by her father when she was younger. This is important as it inspired her to work with animals when she grew up.

4. When was Jane born?

Jane was born on 3rd April 1934.

5. Number these to show the order that they appear in the text. The first one has been done for you.

- 4** She saw how they worked together to hunt other animals.
- 1** Jane spends a lot of her time helping other animals and wildlife.
- 5** She noticed that not all of them were the same.
- 2** Jane travelled to a country in Africa called Kenya.
- 3** Jane watched a chimpanzee using some grass like a spoon.

6. Link these to the correct sentence ending.

Chimpanzees 'speak' to each other...	a chimpanzee.
A chimpanzee is...	through sounds, touch, making different faces and the way they move.
David Greybeard is...	an ape, not a monkey.

7. Jane found out that chimpanzees were a lot like humans.

What sort of things did Jane discover that made her think this?

Pupils' own responses, such as: Jane probably thought chimpanzees were a lot like humans because a lot of what they do is like us. They eat meat and plants like us, they use tools like us, they communicate with one another and they feel feelings and emotions.

8. Which **two words best describe Jane?**

- ☐ selfish
- ☒ **unselfish**
- ☒ **caring**
- ☐ funny

Answers

1. What does the phrase 'our closest relatives' infer about chimpanzees?

It infers that chimpanzees are more like humans than any other animal.

2. Why do you think Jane spends a lot of her time on animal welfare and conservation projects?

Pupils' own responses, such as: Jane loves animals. She loves learning about them and making sure they are OK. She wants to help animals and wildlife so she spends a lot of her time on these projects.

3. What jobs did Jane Goodall's mother and father have? Tick **two**.

- ☐ teacher
☒ **author**
☐ zoo keeper
☒ **businessman**

4. In what way did it help Jane to name the chimpanzees she was studying?

Giving the chimps names helped Jane get to know and understand them better.

5. **Jane watched a chimpanzee putting a blade of grass into a termite nest.**

Why was this important?

Pupils' own responses, such as: It showed Jane that chimpanzees can use tools because the animal was using the blade of grass like a spoon to eat the termites. It was an amazing discovery because before that it was thought that only humans used tools.

6. What type of animal is a chimpanzee and what type of animal is it not?

A chimpanzee is an ape. It isn't a monkey.

7. Join the boxes to link the name to who (or what) it is.

8. **Jane found out that chimpanzees were a lot like humans.**

What sort of things did Jane discover that made her think this?

Pupils' own responses, such as: Jane probably thought chimpanzees were a lot like humans because a lot of what they do is like us. They eat meat and plants like us, they use tools like us, they communicate with one another and they feel feelings and emotions.
