

Paper Plate Robin

You will need:

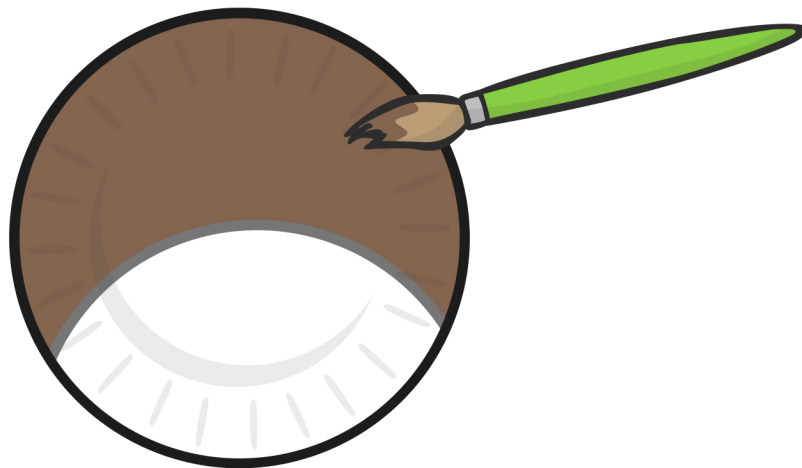

2 white paper plates
Red tissue paper
Yellow Card
Brown Paint
Scissors
Glue
Pencil

1

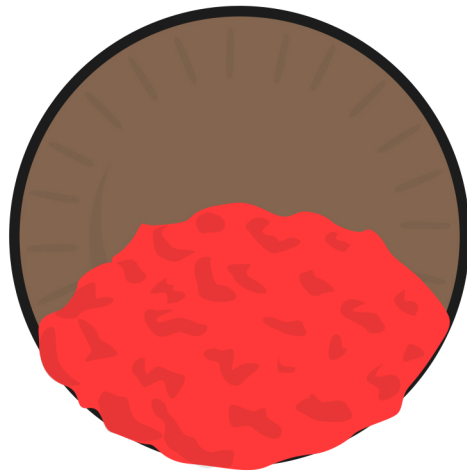

Place one plate so it is covering about half of the other plate. Using the top plate as a guide, draw a line onto the bottom plate.

2

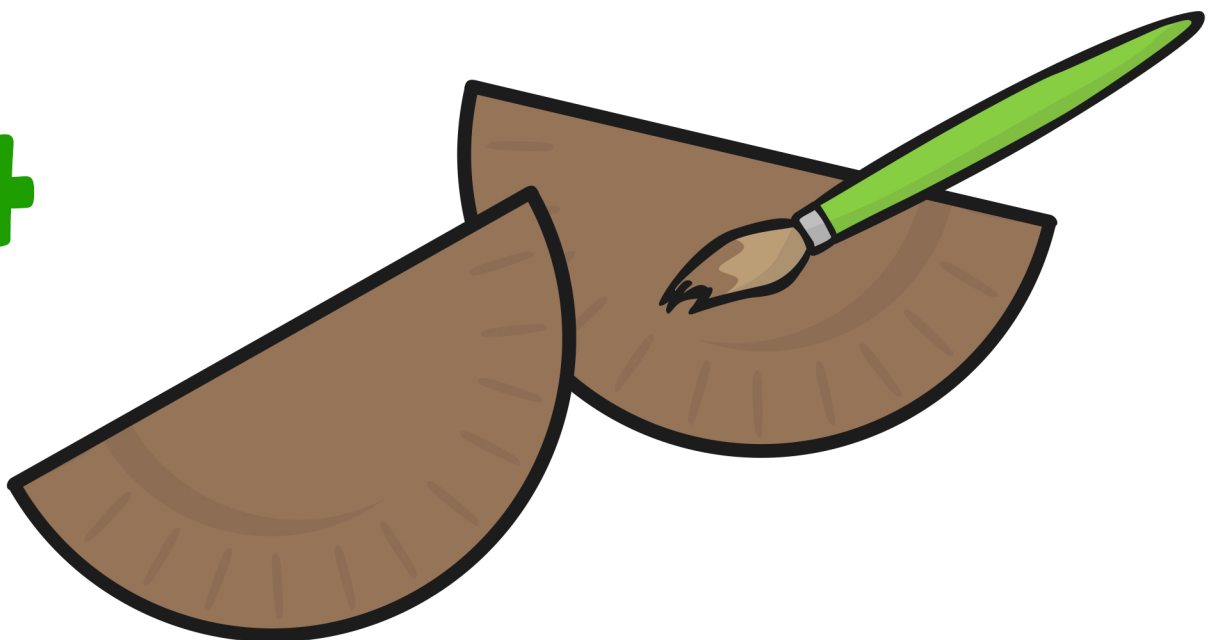

Paint the top half of the plate brown. You could also use torn brown tissue paper.

3

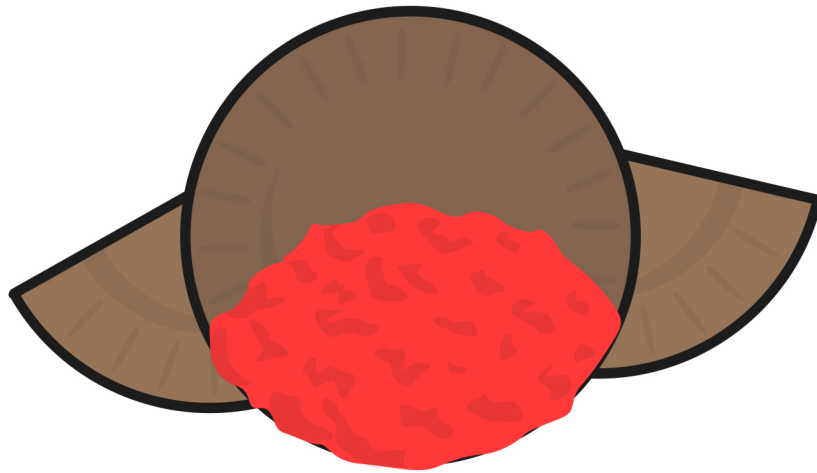

Scrunch up torn bits of red tissue paper and glue down to the bottom half of the plate to make the robin's chest.

4

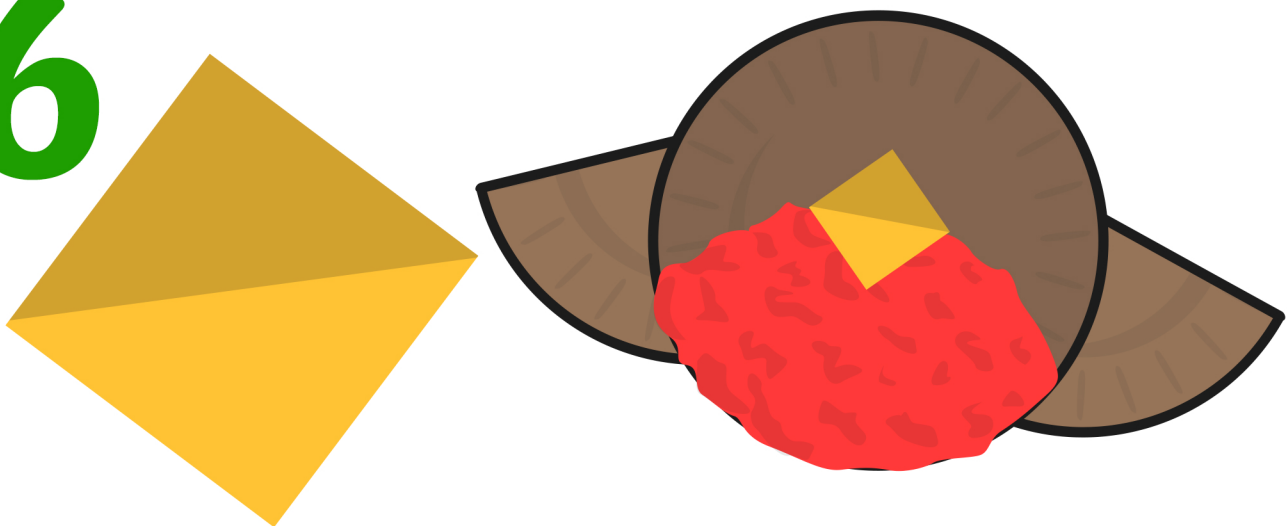

Cut the other plate in half and paint brown.

5

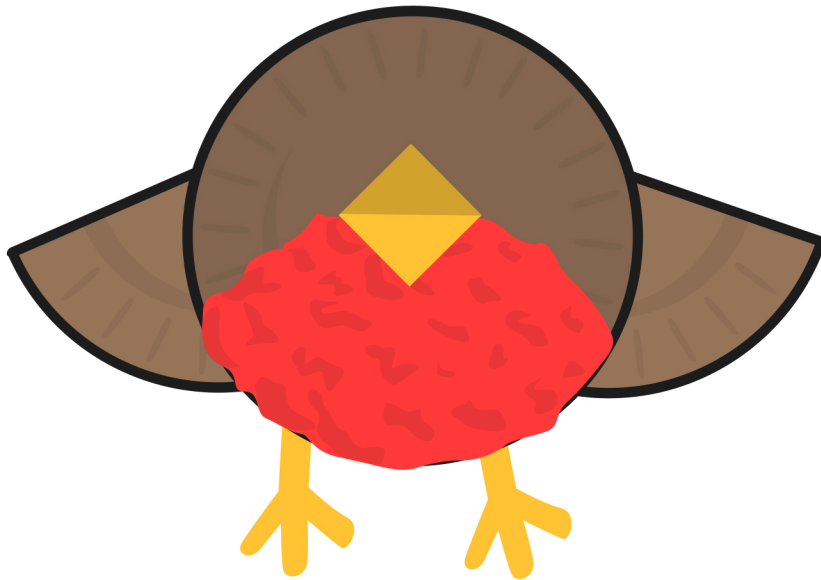

Stick the wings behind the plate as shown in the picture. You could do this using glue, tape or even a split pin.

6

Next, cut out a 4cm by 4cm square of yellow card. Fold it in half to make the beak. Glue onto the robin.

7

Cut out some feet from the yellow card.
Stick these onto your robin.

8

Finally, stick some large googly eyes onto
the robin. If you don't have any, draw
some onto white card and cut them out.
