

Task 1, 2 and 3

LC - Can I recognise the difference between a city, town and village?

Task 1

Have a look at these features that you might find in a settlement. Think about whether you will find them in a village? A town? Or a city? Or all three? And mark the table as shown. Remember to go through the PowerPoint first.

I have done the first one for you. In my example, I have ticked town and city for Office blocks because you would find office blocks there. I have not ticked a village because you do not find office blocks there. You may tick one, two or all three boxes after thinking about what you would find there.

	Find it in a Village	Find it in a Town	Find it in a City
Office blocks		✓	✓
University			
Bank			
Little shop			
Pub			
Department store			
Castle			
Cottage			
Windmill			
Factory			
Church			
Hospital			
School			
Library			
Village hall			
Airport			
Mosque			

Task 1, 2 and 3

Task 2

Your task: Now look at these sentence openers and match them with the sentence endings and tails. Join them up so that they make sense.

A town can support more	...and only found in large cities
The services in a town would be	...services than a village.
Some services are very specialised	...which can support more services
People who live in villages often	...used by many surrounding villages.
Cities have larger populations	...need to travel to nearby towns.

Task 3: Now can you copy the whole sentences in lovely writing in your pink notebook?.
