

Year 6	Monday 28/9/20	Tuesday 29/9/20	Wednesday 30/9/20	Thursday 1/10/20	Friday 2/10/20
Literacy	Make notes to describe Robin Hood. Make a list of nouns then link adjectives and verbs to them to help you build sentences next lesson.	Use the list of nouns and adjectives that you have made to start to build sentences to help you describe Robin Hood.	Plan a character description for Robin Hood. What is he going to be doing? Hunting in the forest? Practising archery? What will happen in each paragraph? Then begin to draft your writing with lots of character description in between some action.	Continue your draft from yesterday, leave yourself room to edit your work.	Read through what you have written and edit and improve it using all the different strategies that you know to engage your reader and write interesting stories.
Reading	Bug Club	Carl Linneaus comprehension	Bug Club	Read the world water day comprehension powerpoint and prepare a debate.	Bug Club
Maths	Look at the maths is fun website and bbc bitesize to revise fractions. Practise turning some fractions into equivalent fractions with common denominators. Can you order them from smallest to largest?	Look at the maths is fun website and bbc bitesize to revise fractions. Practise adding fractions. Remember that the denominators need to be the same in order to add the numerators so you might need to turn the fractions into equivalent fractions first.	Look at the maths is fun website and bbc bitesize to revise fractions. Practise converting fractions from improper fractions to mixed numbers and vice versa. This will be needed tomorrow to subtract fractions.	Look at the maths is fun website and bbc bitesize to revise fractions. Practise subtracting fractions. It is similar to adding fractions. Remember that the denominators need to be the same in order to subtract the numerators so you might need to turn the fractions into equivalent fractions first. If you have mixed numbers in your sum, you will need to convert them into improper fractions first.	Look at the maths is fun website and bbc bitesize to revise short division. Practise dividing numbers in the thousands by one digit numbers. If you have a remainder, remember to record it on the end.
Afternoon lessons	Complete a purple mash profile about the adaptations of an animal.	Create your own classification key. Choose six different animals to sort and organise with questions that you would answer yes or no to.	Complete a purple mash activity about using water	Create a poster that suggests ways that people could save water.	Look at the Henri Rousseau PowerPoint and complete the dated activity. Choose a picture and have a go at replicating it as closely as possible (without tracing).
