

# Rubbish Creatures

What a load of old rubbish!  
Take inspiration from our food waste man and create your own monster creation out of any unwanted junk you can find in the recycling box or rubbish bin.

Have a look at these creations for inspiration – can you see what they've been made from?

## Classroom discussion

When you've finished your recycled creation, compare models: who made the tallest? Who used the most materials? Which one is the most sturdy?
