

ONLINE SAFETY

Do you have a password?

Passwords are a very important thing. If you do not have a password who knows who could pretend to be you!

How to make a good password

- To be able to make a good password you could have :
- 3 random words.
- Any random numbers that are not easy to guess.
- Face ID.
- Fingerprints.

Online bullying is when a person has been saying mean things or doing mean things to you repeated

How to deal with online bullying

If you are dealing with online bullying you should talk to a trusted adult or report to a website like Childline or CEOP.

How to make good choices online

- Never share personal information.
- Use a username.
- Use an avatar.
- Use a strong password.

Everybody should know the minimum age restriction for every app or game. This is because you could see something you shouldn't on the internet.
