

Bonds to 100 using multiples of 5

1. $50 + \square = 100$

2. $\square + 20 = 100$

3. $45 + \square = 100$

4. $\square + 75 = 100$

5. $95 + \square = 100$

6. $\square + 30 = 100$

7. $65 + \square = 100$

8. $\square + 90 = 100$

9. $85 + \square = 100$

10. $\square + 60 = 100$

11. $5 + \square = 100$

12. $\square + 25 = 100$

13. $15 + \square = 100$

14. $\square + 35 = 100$

15. $55 + \square = 100$

16. $\square + 80 = 100$

17. Find different ways to complete the calculation $\square + \square = 50$

Bonds to 100 using multiples of 5

1. $50 + 50 = 100$

2. $80 + 20 = 100$

3. $45 + 55 = 100$

4. $25 + 75 = 100$

5. $95 + 5 = 100$

6. $70 + 30 = 100$

7. $65 + 35 = 100$

8. $10 + 90 = 100$

9. $85 + 15 = 100$

10. $40 + 60 = 100$

11. $5 + 95 = 100$

12. $75 + 25 = 100$

13. $15 + 85 = 100$

14. $65 + 35 = 100$

15. $55 + 45 = 100$

16. $20 + 80 = 100$

17. Find different ways to complete the calculation $\square + \square = 50$
Many answers, for example $5 + 45$, $10 + 40$, $15 + 35$
