

$$45 + 23 =$$

We will do it by first adding the ones and then the tens.

$$\text{Addition of the 1s: } 5 + 3 = 8.$$

$$\text{Addition of the 10s: } 40 + 30 = 70$$

$$70 + 8 = 78$$

So the total is 78.

Remember you should know $5 + 3 = 8$, and $4 + 3 = 7$ so $40 + 30 = 70$. This is easy if you know your number facts!

$$32 + 25 =$$

$$45 + 17 =$$

$$72 + 12 =$$

$$63 + 24 =$$

$$11 + 68 =$$

$$35 + 64 =$$
